

Minimum Recommended System Configuration Requirements

ACCPAC Advantage Series 5.4

Pervasive.SQL Database

Component	Minimum System Requirements (For Client/Server Installation)	
	<i>Client Workstation</i>	<i>Server</i>
Operating System	Windows 98, or Windows ME, or Windows NT Workstation, or Windows 2000 Professional, or Windows XP	Windows NT Server 4.0, or Windows 2000 Server, or Windows 2000 Advanced Server, or Windows 2003 Server*** or Linux (RedHat Linux 7.3 and 8.0, Red Hat Enterprise Linux 3 Update 2 ES or AS, SuSE Linux 8.x and SuSE Enterprise Server 8 or 9)* or Novell NetWare 4.x/5.x/6.x
Database	Workstation component of Pervasive.SQL	Pervasive.SQL 8.6 and above for NetWare/NT/2000/Linux
Processor	866 MHz Pentium	2.0 Ghz Pentium
Memory	256 MB	For a 5-user system: For Windows 2000 – 256 MB For Novell NetWare – 256 MB For Linux – 256 MB
Monitor	SVGA with 256 or more colors minimum 800x600 resolution	SVGA with 256 or more colors minimum 800x600 resolution
CD-ROM Drive	Required	Required
Other	Microsoft Excel 97/2000/XP/2003, for Financial Reports	
Printer	A printer capable of printing 224 characters per line	
Pointing Device	A mouse, supported by Windows	
Free Disk Space	300 MB for application files	

Minimum Recommended System Configuration Requirements

ACCPAC Advantage Series 5.4

Pervasive.SQL Database

Component	Minimum System Requirements (For Internet/Intranet Installation)**	
	<i>Client Workstation</i>	<i>Server</i>
Operating System	Windows 98, or Windows ME, or Windows NT Workstation, or Windows 2000 Professional, or Windows XP	Windows 2000 Server, or Windows 2000 Advanced Server or Windows 2003 Server***
Database	N/A	Pervasive.SQL 8.6 and above for NetWare/NT/Linux
Processor	866 MHz Pentium	2.0 Ghz Pentium
Memory	256 MB	For a 5-user system: For Windows 2000 – 256 MB
Monitor	SVGA with 256 or more colors minimum 800x600 resolution	SVGA with 256 or more colors minimum 800x600 resolution
CD-ROM Drive	N/A	Required
Other	Internet Explorer 5.5 and Excel 97/2000/XP/2003, for Financial Reports	Internet Information Server 5.0 and Crystal Enterprise 8.0
Printer	A printer capable of printing 224 characters per line	
Pointing Device	A mouse, supported by Windows	
Free Disk Space	300 MB for application files	

Note:

(*) – Other Linux distributions based on kernel 2.4.1 might work but are not supported by ACCPAC Technical Support.

(**) – For web-based deployment, the ISP, firewall or proxy server must allow DCOM traffic to pass in order for the ACCPAC internet deployment to be successful.

(***) – Crystal Enterprise 8.0 is not supported on Windows 2003; you must use Crystal Enterprise 10.

Minimum Recommended System Configuration Requirements

ACCPAC Advantage Series 5.4

Microsoft SQL Server Database

Component	Minimum System Requirements (For Client/Server Installation)	
	<i>Client Workstation</i>	<i>Server</i>
Operating System	Microsoft Windows: <ul style="list-style-type: none"> • Microsoft Windows XP Professional • Microsoft Windows 2000 	Microsoft Windows : <ul style="list-style-type: none"> • Microsoft Windows 2003 Server*** • Microsoft Windows 2000 Server • Microsoft Windows 2000 Advanced Server
Database	Workstation component of Microsoft SQL Server	Microsoft SQL Server 2000/2005
Processor	1.0 GHz Pentium	2.0 GHz Pentium
Memory	512 MB	For a 5-user system: 384 MB
Monitor	SVGA with 256 or more colors minimum 800x600 resolution	SVGA with 256 or more colors minimum 800x600 resolution
CD-ROM Drive	Required	Required
Other	Microsoft Excel 97/2000/XP/2003, for Financial Reports	ODBC driver for SQL Server database
Printer	A printer capable of printing 224 characters per line	
Pointing Device	A mouse, supported by Windows	
Free Disk Space	300 MB for application files	

Minimum Recommended System Configuration Requirements ACCPAC Advantage Series 5.4 Microsoft SQL Server Database

Component	Minimum System Requirements (For Internet/Intranet Installation)**	
	<i>Client Workstation</i>	<i>Server</i>
Operating System	Microsoft Windows: <ul style="list-style-type: none"> • Microsoft Windows XP Professional • Microsoft Windows 2000 	Microsoft Windows : <ul style="list-style-type: none"> • Microsoft Windows 2003 Server*** • Microsoft Windows 2000 Server • Microsoft Windows 2000 Advanced Server
Database	N/A	Microsoft SQL Server 2000 and 2005
Processor	1.0 GHz Pentium	2.0 GHz Pentium
Memory	512 MB	For a 5-user system: 384 MB
Monitor	SVGA with 256 or more colors minimum 800x600 resolution	SVGA with 256 or more colors minimum 800x600 resolution
CD-ROM Drive	N/A	Required
DVD Drive	For Web Deployed systems using Sage Accpac Web Reporting by Crystal	For Web Deployed systems using Sage Accpac Web Reporting by Crystal
Other	Internet Explorer 5.5 and Excel 97/2000/XP/2003, for Financial Reports	Internet Information Server 5.0, Sage Accpac Web Reporting by Crystal, ODBC driver for Microsoft SQL Server database and a minimum 10 MB network connection (100 MB recommended) between the Web server and workstations****
Printer	A printer capable of printing 224 characters per line	
Pointing Device	A mouse, supported by Windows	
Free Disk Space	300 MB for application files	

(**) – For web-based deployment, the ISP, firewall or proxy server must allow DCOM traffic to pass in order for the Sage Accpac internet deployment to be successful.

(***) – Crystal Enterprise 8.0 is not supported on Windows 2003; you must use Crystal Enterprise 10.
