

Dear ACCPAC Plus Customer,

I'm Craig Downing, General Manager of Sage Software's Sage Accpac business unit. I'm writing today with important news about your ACCPAC Plus product. News that, for most of you, is good—very good.

**On September 30, 2006, we'll be retiring ACCPAC Plus and moving it to our list of "discontinued" products\*.**

"How is this good news?" you may be wondering. Well, it's good news because we're going to help you get on board with a smarter, more effective solution. A solution that not only offers many more capabilities than ACCPAC Plus, but may even cost less to own and maintain than your ACCPAC Plus product. That solution is Sage Accpac.

To help you upgrade from ACCPAC Plus to Sage Accpac before September, we're demolishing every possible barrier that stands in your way. We're offering phenomenal pricing, conversion aids, new versions of Sage Accpac that are "just right" for your business, and new modules that can help you in ways you've never even thought of before.

As a company, Sage Software is known for its steadfast commitment to the goals and challenges of small and midsized businesses. Sage Accpac is a part of that commitment, that mission. If we thought ACCPAC Plus was the right product to help you achieve your goals and surmount obstacles as well as or better than Sage Accpac, we wouldn't waste your time.

We're the ones who made ACCPAC Plus, so we know it's a great product. We also know Sage Accpac is even better. If we can do better, you can too. And if thousands of other former ACCPAC Plus customers can upgrade to Sage Accpac without a hitch, you can too. We'll do everything we can to help you make the move up to Sage Accpac.

Your Sage Software business partner can talk to you about Sage Accpac pricing and benefits. Please do yourself a favor: listen to him or her. Give upgrading some serious thought. And do it now, not later. If you wait too long, you will miss out on limited-time promotions and package deals.

Once again, ACCPAC Plus will be placed on our list of discontinued products on September 30, 2006. If you have any questions about what this means for you, please contact your business partner, or call your dedicated customer account manager at 866-790-9071.

Thank you for your continued support of Sage Software. We look forward to showing you how Sage Accpac can do more for your business than you ever thought an accounting system could.

Sincerely,

A handwritten signature in black ink, appearing to read "C Downing".

Craig Downing  
VP, General Manager  
Sage Software, Sage Accpac business unit
